

LAUNCH COLLECTIVE

COLLECTIVE STRENGTH • DIVERSE JOURNEYS • PERSONAL GROWTH

At Launch Collective, young people aren't just clients - they're individuals with unique strengths, stories, and futures.

We're here to make sure the people who guide them are ready to meet them with care, respect, knowledge and hope.

Our therapists, coaches and other professionals build trust and real connection, support young people through life challenges and help them discover their strengths and feel confident about the future.

Neurodivergence Expertise

What We Believe

Everyone deserves someone who listens and sees the real them

Every journey is different — and that's a good thing
Growth happens when you feel safe, supported, and valued

How We Help Therapists and Other Professionals

We work with therapists, coaches and other professionals so they can:

Support people through issues like anxiety, trauma, big life challenges and transitions

Build trust and real connection

Understand and celebrate neurodiversity

Help discover strengths and feel confident about the future

Professionals join a community, not just a course

Every step we take is about helping young people thrive

For Young People & Families

We make sure the therapists who work with young people are well-trained, inclusive, and equipped to manage their challenges and lean into their strengths.

We aim to make places, spaces and fun activities for young people to connect, learn and belong.

Launch Collective is fiercely inclusive of minority groups including First Nations people, Neurodivergent, LGBTQI+, Disabled, Culturally and Linguistically Diverse people and anyone else that feels like they struggle to find places they belong.
